Lilly, Pa., March 9, 1895 ED. FREEMAN:-At a meeting held in pera house of F. C. About 30 persons entering their names and willingness to join and support a Democratic club which will meet every Saturday evening. After a general routine of business the following resolutions were

Resolved, That for more than a quarter of a century the Democrats of Lilly borough and Washington township have stood firmly with the Democratic party (as they did from their earliest day) without a single nomination to any office and we feel that after these many years of patriotic devotion to the party, our claim in presenting the name of one of our most respected itizens and untiring life-long Democrats o our fellow Democrats throughout the ounty as our choice for the nomination for the office of assembly is a strong one, and we, therefore, present the name of Biair short, of Lil'y borough, whose devotion to the Democratic party commands our highest respect, and we trust the Democrats of Cambria county will give our claim for Mr Short's nomination to the office named, the consideration a banner Democratic district and an unflinching

Wishing to give the wife of the veteran a chance to make a little money, the government has decided to give the shirts out to soldiers' families to make up. When he receives an order for the shirts the agent looks over the sewing machine in the house, and, finding that the stitch is not just right, offers to change it for a dollar, the money to be given back when the material for the shirts is delivered by an assistant. His victims are now looking for the assistant.

"A man killed on the railroad never dies with his boots on," remarked a Reading railroad employe, at Wayne Junction the other morning. "In my experience of over 20 years I have seen perhaps over a hundred cases where people have been struck and killed by engines, and in every instance, when the body was picked up was found to be minus shoes. Even men wearing heavy top boots are not exempt from the invariable rule. Any old engineer wil tell you the same thing. It is a mystery which nobody seems able to solve, and i as inexplicable as that other strange phenomenon of the drowned man, who is always on top of the water face downward, while a woman floats face upward."
